Anas Khan

Full Stack Developer | UI/UX Designer

✉ anas23khan083@gmail.com | 📞 9794354555 | ⭘ GitHub | ⟨/⟩ anas-khan.tech | in LinkedIn | ▣ LeetCode

Education

IIIT Dharwad   Dharwad, Karnataka
Bachelor of Technology, Computer Science   *Aug. 2023 – May. 2027*
Grade: 9.44

Experience

InfoKalash   Jan 2025 – Feb 2025
Frontend Developer   *Remote*
- Spearheaded **end-to-end UI/UX design using Figma** for a startup platform, creating responsive wireframes and interactive prototypes that **improved user engagement by 40%**.
- Engineered a robust **authentication system** and transformed Figma designs into **pixel-perfect implementations**, reducing design-to-development time through efficient component architecture.

College Website   2024
Contributor   *IIIT Dharwad*
- Collaborated in developing a **college website** supporting **1,000+ concurrent users** using Next.js and TypeScript, enabling **real-time content management and updates.**
- **Optimized website performance** and user experience, **reducing load times by 25%** while **improving page usability by 15%** through strategic **performance enhancements.**

Projects

AutoML-MLOps | *React, NextJS, Python, Scikit-learn, TypeScript* ↗   Nov 2024 – Dec 2024
- Architected an **end-to-end AutoML platform** using React, Next.js, and Python, enabling data scientists to automate model training and deployment workflows, **reducing development time by 70%**.
- Developed **real-time model training visualization dashboards** using Recharts and Tailwind CSS, with **automated feature selection pipelines** supporting datasets up to 1GB.

CloudKeeper | *ReactJS, Appwrite, Cloudinary, Tailwind, Express, Shadcn* ↗   Jan 2025 – Jan 2025
- Engineered an **AI-powered cloud storage platform** using Next.js, Appwrite, and Cloudinary, enabling seamless file management with **automated compression** and **intelligent analysis** via Google's Gemini API.
- **Optimized storage efficiency** by integrating Cloudinary's smart compression while developing an **intuitive dashboard** with Recharts and Tailwind CSS, providing **real-time storage insights**, **file categorization**, and enhanced user interaction.

AttendEase | *NextJS, TailwindCSS, ShadCN, Framer Motion* ↗   Oct 2024 – Oct 2024
- Built a React.js and Next.js web app for **streamlined attendance tracking** of **100+ students daily**, integrating MongoDB with Mongoose for **efficient data management.**
- Designed an **intuitive user interface** with interactive dashboards and RESTful API endpoints, **reducing data entry time by 30%** while ensuring scalability for multi-classroom environments.

ProspectIQ | *Python, Flask, TypeScript, Crunchbase, SERP-API* ↗   Jan 2025 – Feb 2025
- Engineered a **full-stack lead generation platform** using React, Next.js, and Flask, integrating Crunchbase API and Google's Gemini API to generate and enrich **1000+ B2B sales leads daily**.
- Implemented **real-time data visualization dashboards** with **automated enrichment pipelines**, improving lead quality scoring accuracy by **45%** while **reducing analysis time by 60%**.

Technical Skills

Languages: C/C++, Java, Python, SQL (Postgres, MySQL), JavaScript, HTML/CSS
Frameworks: ReactJS, NextJS, Flask, Bootstrap, Tailwind
Developer Tools: Git, Google Cloud, VS Code, Render, Vercel, Netlify
DevOps: Docker, Kubernetes, Linux
Backend: NodeJS, ExpressJS, Firebase, GraphQL

Achievements

- Won **IIT Dharwad hackathon - Devhack 5.0**
- Achieved **3 star rating** in CodeChef (Max rating - **1632+**)
- Solved over **700+ problems** on platforms such as LeetCode, GFG, CodeChef, Codeforces & Coding Ninja
